TECHNICAL SPECIFICATION

**Water drainage with 80mm diameter**

The 80mm diameter used for the drainage system ensure water is easily driven towards the posts from where it evacuates.

**Possibility of adding LED lights in the beams**

LED lights can be installed in the beams allowing to enjoy the roof day and night.

**Installation from the inside**

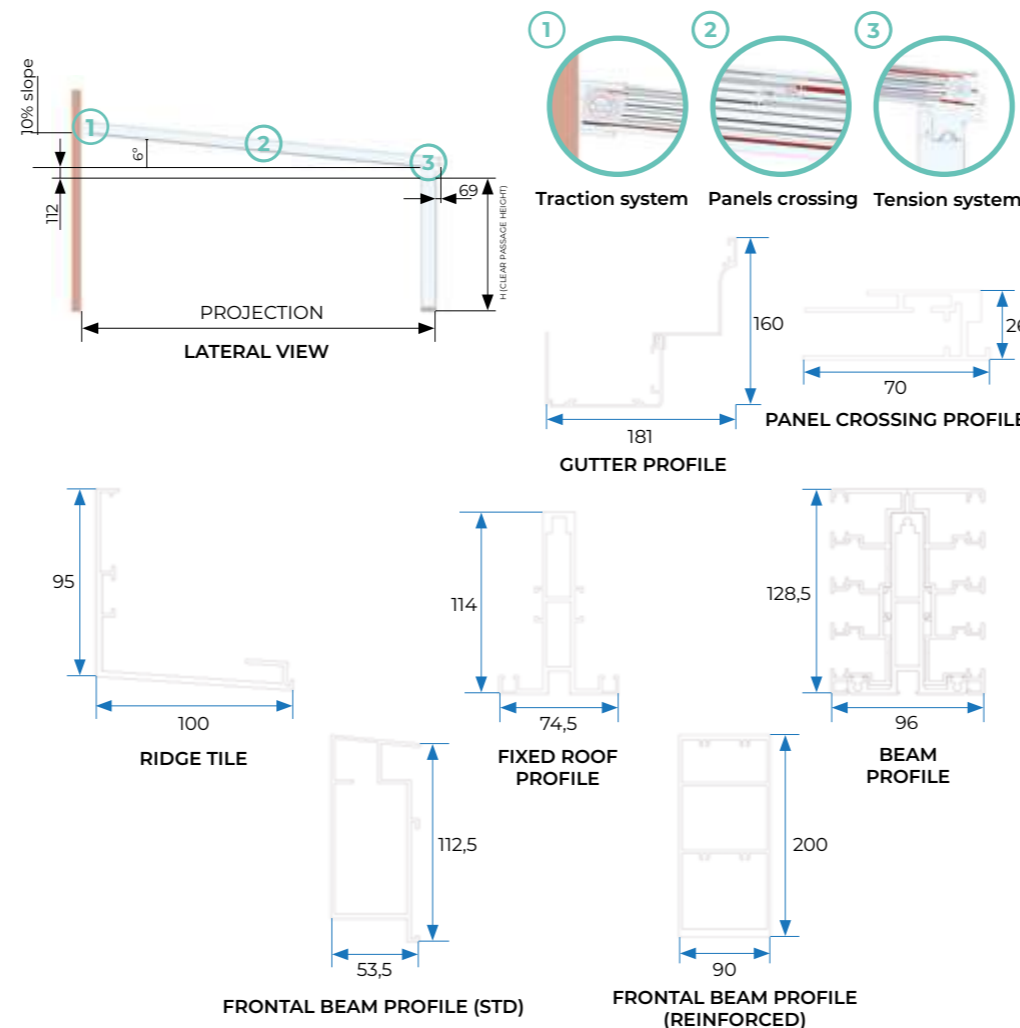

The installation for the panels can be easily made from the inside of the structure, without risks.

**Opening System without wheels**

The panels slide open without using any wheels in the rails, reducing maintenance to a minimum.

# Glass roofs Seesky LUZ

The Seesky LUZ glass roofs are durable and resistant structures that protect against any adverse weather and, at the same time, create new enjoyable spaces.

Thanks to its motorized sliding panels which can be opened and closed to any desired position Seesky LUZ, allows a pleasant and gradual ventilation of the room making it a truly all year round product.

With our Seesky LUZ glass roofs you'll be able to create new usable spaces and enjoy your terrace, patio, garden, restaurant or beer garden all year long without the need of lengthy and expensive building works. All of this with materials of prime quality and durability.

Glass roofs Seesky LUZ, the most resistant and durable option in the market.
